Goals/Objectives to be achieved
Access prior knowledge
Adapt to content meet individual or unique student needs
Adapt the mode of response required of students
Alleviate power struggles between teacher and student
Assist learners to defend a particular position in a written assignment
Assist students to learn information through paraphrasing
Build academic transfer skills
Build appreciation that everyone belongs and is needed
Build appreciation that everyone has a contribution to make
Build awareness of academic expectations
Build awareness of adaptation process
Build awareness of appropriate academic behaviors
Build awareness of appropriate behaviors for school language and rules
Build awareness of appropriate cognitive academic language
Build awareness of appropriate communication behaviors for school language and rules
Build awareness of appropriate social and academic language
Build awareness of learning process
Build awareness of relation between cause and effect
Build awareness of school culture expectations
Build awareness of the appropriate content language in English culture/language
Build confidence in independent work
Build first language to English transfer skills
Build foundation for learning
Build home and community language to English transfer skills
Build learners' confidence in their control of the learning process
Build metacognition skills
Build students' self-awareness of behavior
Build transfer skills
Build upon existing language skills of students
Build upon existing language strengths of students
Build upon family language and culture
Build upon the diverse language foundations of students and parents
Build vocabulary
Clarify responsibilities, assignments, and rewards
Develop academic language
Develop analytical skills
Develop association skills
Develop awareness of cause and effect
Develop basic interpersonal communication
Develop basic sentence structure
Develop categorization skills
Develop cognitive academic language
Develop cognitive learning strategies
Develop confidence in academic interactions
Develop confidence in school culture interactions
Develop confidence in school language
Develop content area skills
Develop content knowledge foundation
Develop extended time on task
Develop field independent skills
Develop field sensitive skills
Develop higher persistence
Develop higher tolerance
Develop independence in learning situations
Develop personal control of situations
Develop positive peer relationships
Develop problem-solving skills
Develop self-esteem
Develop self-monitoring skills
Develop students' understanding of prediction
Develop thinking and planning skills
Eliminate inappropriate behavior
Encourage pride in home language and culture
Encourage pride in students' personal history
Encourage questioning and exploration of new learning
Enhance ability of students to focus on learning
Enhance ability of students to learn new things
Enhance ability to resolve conflicts with others
Enhance awareness of school adaptation process
Enhance students' interaction with family during transition
Ensure students are familiar with specific academic and behavioral expectations
Ensure that students are aware of and responsible for their own actions
Expand and elaborate on learning
Expand and elaborate on learning foundation
Expand comprehension
Facilitate access of prior knowledge
Facilitate acquisition of content knowledge
Facilitate analogy strategies
Facilitate connections between known and new
Facilitate discussion about new learning
Facilitate family adaptation to new community
Facilitate individualization
Facilitate language development
Facilitate nondirective guidance about student misbehavior
Facilitate reading process
Facilitate school adaptation process
Facilitate students assuming responsibility for learning
Facilitate student regaining control over self
Facilitate student self-concept as a successful person
Facilitate students' comfort with learning environment
Facilitate students' ownership in their education
Facilitate acquisition of content knowledge
Facilitate writing process
Facilitates students' self-evaluation skills
Improve access to prior knowledge
Improve comprehension
Improve confidence and self-esteem
Improve confidence in academic interactions
Improve confidence in home and community culture/school culture interactions
Improve confidence in school interactions
Improve mnemonic retrieval
Improve motivation
Improve problem solving of math word problems
Improve reading comprehension
Improve retention of content
Improve school/parent partnership
Improve sequencing skills
Improve test-taking skills
Improve use of discourse techniques
Improve vocabulary
Improve writing strategies
Increase focus on reading
Increase students' probability of generating a correct response
Increase students' time on task
Increase the frequency of appropriate responses or behaviors
Increase time on task
Lower anxiety levels
Minimize ambiguity in classroom
Minimize behavior problems
Improve student's ability to organize and prioritize information
Prevent inappropriate moving around the room
Prevent minor inappropriate behaviors from escalating
Reassure frustrated students
Recognize the importance of working together
Reduce acting out behaviors
Reduce anxiety and stress
Reduce anxiety and stress responses
Reduce anxiety in social/academic interactions
Reduce code switching
Reduce confrontations over minor misbehaving
Reduce confusion in locus of control
Reduce culture shock
Reduce distractibility
Reduce fears associated with assignments
Reduce frustration
Reduce frustration in students due to unclear expectations
Reduce impulsivity
Reduce inappropriate behaviors
Reduce low-persistence behaviors
Reduce misperceptions
Reduce number of conflicts with other students
Reduce off-task behaviors
Reduce resistance to change
Reduce response fatigue
Reduce specific attention to students' misbehaving
Reduce stress for new students
Reinforce content lessons
Reinforce school/parent partnership
Retention of content
Strengthen ability to discuss what is happening
Strengthen awareness of learning process
Strengthen home/school relationship
Strengthen knowledge of academic content
Strengthen language development
Strengthen learning to learn skills
Strengthen retention and application abilities
Strengthen school/parent partnerships
Sustain engagement
Sustain engagement with reading and writing
Use prior knowledge
